FOR VA PALO ALTO CALIFORNIA  
QUESTIONS AND ANSWERS  
VA261-16-Q-0952 / PR# 640-17-1-053-0002

Question 1: Are we able to insert a column that precedes the Cost column? This would just be to provide further clarification as to what we are providing pricing for respectively?

Answer 1: **Yes**

Question 2: Tl-201 Chloride UD: This item is typically billed and priced per mCi. In the Price FY16 Column, would you like to see the price per mCi multiplied by 3mCi for your Unit Dose price?

Answer 2: ***Please price the item the way it was listed in the solicitation.***

Question 3: I-123 Ioflupane (DaT Scan) is only available through a single manufacturer due to distribution rights. Therefore it would not be priced by any other vendor. Would this prompt consideration for removal from the solicitation??

Answer 3: ***I-123 Ioflupane (DaT Scan) has been deleted from the price-cost schedule of estimated usage.***

Question 4: Tc99m DMSA: This product has recently been announced that it has ceased production from the manufacturer. Would this prompt consideration for removal from the solicitation??

Answer 4: ***Tc99m DMSA has been deleted from the price-cost schedule of estimated usage.***

Question 5: • Tc99m Mebrofenin (Choletec) UD: Is pricing for FDA approved generic Tc99m Mebrofenin allowed to be provided in place of the branded Choletec?

Answer 5: ***An FDA approved generic Tc99m Mebrofenin is allowed to be provided in place of the branded Choletec.***

Question 6: • Can provide both pricing LEU and non-LEU?

Answer 6: ***~~VA is required to use non-LEU only.~~ VA is required to use LEU = Low Enriched Uranium (non-HEU) only.***
